

**PUEBLO OF LAGUNA  
JOB ANNOUNCEMENT NO. 2023-62**

**OPEN TO IN-HOUSE & EXTERNAL APPLICANTS**

<b>POSITION:</b>	<b>Engineer Technician II</b>
<b>OPENING DATE:</b>	<b>November 28, 2023</b>
<b>CLOSING DATE:</b>	<b>Open Until Filled</b>
<b>DEPARTMENT:</b>	<b>Public Works / Engineering</b>
<b>SALARY RANGE:</b>	<b>NE11; \$34,258 - \$51,397</b>

**Position Summary:**

Under general supervision of the Staff Engineer, provides technical support in program research, project planning and development, project quality assurance, and field data collection; maintains and records supporting surveying, inspection, and project data. Consistently applies the Pueblo's Core Values in support of Workforce Excellence. Maintains confidentiality of all privileged information.

**Essential Duties and Responsibilities:**

- Performs field surveys and provides accurate survey records and interpretations. Transfers data to relevant design plans and details formats.
- Completes records, reports, and data search to support project conceptual understandings and renderings for design considerations.
- Compiles necessary pre-design project layouts, as-built collections, and transfers data into required formats.
- Completes final construction plans, specifications, and development of project manual for bid solicitation.
- Completes necessary plans and details associated with post bid activities.
- Provides support in formulation of project cost estimates related to planning, design, and construction.
- Conducts construction staking and land surveying for legal descriptions and certificates.
- Provides technical reports and status updates on on-going projects and tasks.
- Maintains comprehensive hard copy and electronic records.
- Performs on-site preliminary testing activities and data collection, pre-construction, in-progress construction field surveys and as-builts surveys.
- Utilizes AutoCAD and other engineering design software to prepare site layouts, utility as-built, design drafting, and other required visual interpretations for projects.
- Assists the Construction Management team in construction inspections and quality assurance testing to meet project specifications. Provides required documentation certifying results of testing and adherence to relevant codes and regulations.
- Assists, as directed, the Pueblo's Emergency Management Program in its response to public emergency incidents.
- Obtains required certifications within specified time limits; maintains/enhances professional and technical knowledge by attending relevant/required training, and workshops.
- Contributes to a team effort and accomplishes related results as required.
- Performs other duties as required.

**Minimum Qualifications:**

Associate degree in engineering technology, Construction Management, Architecture or related field required. Five (5) years of work experience in surveying, construction management, ACAD, drafting, or other directly related work experience, required. Certified Civil Engineering Technician credentials preferred. FEMA/ICS 100, 200, 700, 800 Certifications preferred; must obtain within six (6) months of hire. A combination of relevant education and directly related work experience may be considered.

**Background Investigation Requirements:**

The Pueblo of Laguna has a Suitability Policy for background investigation processes. Every position in the government operation is reviewed and designated at one of three risk levels. The determination is commensurate with public trust responsibilities and attributes of the position which includes job duties. The Engineer Technician II is designated as a Moderate Risk Public Trust (MRPT) position.
